

Joint Symposium 8

Cardiovascular Committee / European Association of Cardiovascular Imaging (EACVI)

Sunday, October 13, 16:30-18:00

Session Title

Which Strategy for the Evaluation of Patients at the Time of Multi-Modality Cardiac Imaging?

Chairpersons

Hein Verberne (Amsterdam, Netherlands)

Marianna Fontana (London, United Kingdom / EACVI)

Programme

16:30 - 16:50 Daniele Andreini (Milan, Italy / EACVI): Which Role for Cardiac CT(A) in CAD?

16:50 - 17:10 Antti Saraste (Turku, Finland): Which Role for MPI in CAD?

17:15 - 17:35 Marianna Fontana (London, United Kingdom / EACVI): Which Role for Cardiac MRI in Infiltrative Cardiomyopathies?

17:35 - 17:55 Olivier Lairez (Toulouse, France): Which Role for SPECT and PET in Infiltrative Cardiomyopathies?

Educational Objective

This session will discuss the respective role of morphological and functional imaging in the evaluation of patients with cardiovascular diseases.

Summary

Morphological and functional imaging play an increasing role in the non-invasive evaluation of cardiovascular diseases and provide complementary information. This session will review the value of each imaging approach in several clinical indications and discuss the best strategies to reach high diagnostic performance and efficient use of imaging facilities.

Key Words

SPECT; PET; Coronary CTA; Cardiac MRI; Hybrid imaging
